#### Key Facts

The Fund aims to achieve capital growth and income from a diversified portfolio of investments.

The Fund invests primarily in equity of companies in any country.

The Fund may also invest to a limited extent in bonds, units of collective investment schemes, exchange traded funds, products which qualify as transferable securities, but which are packaged around a number of underlying securities, from which they derive their value ('FDIs'), deposits and money market instruments. The Fund may invest in companies of any market capitalization. The Fund may invest in emerging markets although it will focus on developed markets. The Fund Manager has absolute discretion to decide the investment type, geographical area, economic sector or issuer of investments, subject to applicable restrictions.

The Fund's investments will be in Euro although investments may also be exposed to other foreign currencies.

The Fund has no reference to a benchmark.

The Fund may also invest directly in FDIs for hedging / efficient portfolio management purposes and may also employ other techniques and instruments (apart from those concerning the use of FDIs) relating to transferables securities and money market instruments for the purpose of efficient portfolio management, subject to applicable restrictions.

The Fund is suitable as a long term investment.
